

BEST PRACTICE-I

Online Teaching through Various Platforms

1. Title of the Practice

“Online Teaching through Various Platforms”

2. Objectives of the Practice

- a) To provide facility for students for online teaching during Covid-19
- b) To provide various platforms of teaching and to aware students about these platforms.

3. The Context

During Covid-19 pandemic, lockdown was implemented by govt. so there no offline classes, so to avoid the loss of students, our college started online teaching through various platforms like Whatsapp, Google Meet, Zoom Meet, Google Classroom and Canvas.

4. The Practice

During the Covid-19 situation we have started online platforms like Whatsapp, Google Meet, Zoom Meet, Google Classroom, Canvas, etc. During this practice there was limitation of Wi-Fi facility but we overcome this limitation by providing Wi-Fi facility in Library and NRC.

To make online teaching familiar to students, we have provided some videos on Whatsapp for how to use Google Classroom as well some instructions provided for the use of Canvas.

5. Evidence of Success

These implemented methods become successful for the benefit of students. Now all students are using these online methods. Our staff members uploaded their video lectures on Google Classroom as well as on Canvas system. Teaching materials are available in the PDF format for the students. Internal tests were conducted by online method by using Canvas as well as Google Forms. The results clearly indicate that the students are easily using these methods for their learning.

6. Problems Encountered and Resources Required

- a) Providing Wi-Fi facility in campus.
- b) To train the teachers for the use of such online teaching methods
